About the project

The HateNoMore campaign is part of the international project entitled Accommodating the needs of the victims of homophobic and transphobic hate crimes, run in five EU countries: Poland, Lithuania, Latvia, Croatia and Hungary. The main goal of the project is to prevent the victimization of persons harmed by hate crimes motivated by homophobia or transphobia through increasing the competences of persons representing law enforcement agencies and the justice system and through the introduction into legislature against hate-motivated crimes two protected traits – sexual orientation and gender identity/expression. Interviews with homophobia- and transphobia-motivated crimes have been conducted as part of the project. The research has been accompanied by an analysis of the law and the practice in the domain of treatment of persons who have been subjected to hate crimes.

At the end of September and the beginning of October 2015, a survey serving the purpose of collecting the experiences and needs of persons who have experienced homophobic or transphobic crimes was available on our website. Thanks to the analysis of the results, a toolkit serving as a set of good practices, which may be used in workshops for judges, prosecutors and police officers, who, due to their professional activities, encounter victims of crimes motivated by homophobia and transphobia.

The following organisations are participants of the project: Zagreb Pride (Croatia), Háttér Társaság (Hungary), MOZAĪKA (Latvia), LGL(Lithuania) and Campaign Against Homophobia (Poland). The Polish partners include: the Centre for Research on Prejudice of the University of Warsaw, the Polish Society of Anti-Discrimination Law, the Prosecution General in Poland and the National Police Headquarters in Poland. The project is financed by the Fundamental Rights and Citizenship programme of the European Commission.
